Enroll your children in the future. Sign up for the Think Ahead coding and robotics 2019 programmes. Prepare them for success.

Technology plays a critical role in all of our lives. It is more important now than ever that children learn the language of Code. At Think Ahead we aim to develop the 4 C’s of coding through our extra mural and holiday camp coding programme. These are skills that are vital to being a successful 21st century citizen:

- Creativity
- Confidence
- Computational thinking
- Collaboration
